SQL Tutorials Github

Welcome to the SQL tutorials section of our course! To enhance your learning experience and ensure you have all the necessary resources, we have provided comprehensive SQL content on GitHub. Please visit the following link to access all the SQL files and related tutorials:

[GitHub Repository: SQL Tutorials](#)

In this repository, you will find:

- SQL scripts for each tutorial session
- Step-by-step instructions to execute the SQL queries

We encourage you to clone or download the repository so you can follow along with the tutorials and practice on your own.

Happy learning!
